HARDEST GAME OF THE SEASON.

Edmonton Defeated Olds at Hockey Last Night on the Thistle Rink—One of the Swiftest Games Played on Edmonton Ice.

Upwards of 1200 people at the Thistle rink last evening watched the hardest game of the season and one of the swiftest ever played on Edmonton ice. Several came up from Olds and other points along the line and with a contingent from Strathcona provided the bench support for the visiting team, while Edmonton people saw that this detail was not lacking on behalf of the home team.

The game was called for 7.15, but it was after 8 when the smallboy with the for horn, perched aloft on a brace of the arched roof, tore the atmosphere with discordant shrieks just to let the crowd know that the teams were coming down the stairs. The large assemblage caught the enthusiasm and cheered lustily. It was apparent in his preliminary warm up before the bell rang that the visitors were foemen not to be despised. In size they had considerably the advantage of the home players, the majority of them being over the average in weight and height, while the local men are probably a trifle under the average in these regards. Nor in their case was there a weakness for they had the speed and agility to match.

On the face of the Edmonton forward captured the puck and charged at a terrific pace. They got well within the danger zone and in the ensuing scrimmage ruined several hot shots and the visitors' goal. But the insignificant defence of the Olds team came into play and maneuvers ruined hot shots were like unavailing. When danger threatened there was always a wall of red before the goal and to break this meant leaving their power.

The first half was almost incessant battle on the visitors' half of the ice. The city forwards had taken the aggressive and were apparently ready to stay with the aim; but the Olds' defence men were in place and when the rubbers of the outer line it was only to be stopped by the goal-keeper, whose splendid game won the freely expressed admiration of the spectators, regardless of the team of which they sympathized. The weakness of the visiting team became clear early in the game when their forward, who used the puck and tried to rush the home goal and it was shown at frequent intervals throughout the game. The home defence had been strengthened by Johnston at cover and Wright as rover, with Elliott, Sherman and Deaton on the forward line. To successfully manœuvre a rush through this line was beyond the power of the visitors without being driven into a corner where shooting was impossible forward line. Time after time they captured the rubber and started, only to have it coolly stolen by one of the home forwards, or to be broken up by Johnston and Banford on the defence. The shots they scored at the Edmonton goal were only chance drives from scrimmage and none of them found the net. During the whole half the struggle continued without a slackening of the pace, but

when the bell rang neither side had scored.

The second half opened with a renewal of this battle with the same intensity and for about half of the remaining time the struggle was without result, neither team showing signs of weakening. Then from a scrimmage the Edmonton forwards scored the first goal of the game and the crowd applauded till they were hoarse.

A moment after the face off they landed the puck again in the net, but it was an off side. The faced again skirmished for a moment and landed the second goal. Then for five minutes the struggle settled down to the former undecidedness till a flash of the home forwards landed the third goal. So the game ended, score 3 to 0.

THE CITY'S FUTURE.

TO BE A SECOND WINNIPEG

 The Gas and Oil Deposits of the Ed-
 monton District. The bearing of
 their development on the future of
 Edmonton.

(WRITTEN FOR THE BULLETIN.)

Edmonton is destined to be a great town, a populous and busy center. The railroads that are building along convergent lines in our direction, are enough in themselves to make Edmonton an important city. The grain and live stock interests of the Territory of which Edmonton is the center, will more than make this place a second Winnipeg.

But there are our gas and oil deposits and various mineral wealth. These are certain to play an important part in the growth of the city and the enrichment of our people.

The importance of exploiting and developing the natural resources of the Edmonton district at this particular time cannot be emphasized too greatly. For twenty five years it has been the generally accepted theory that great deposits of natural gas and petroleum underlie the slightly wooded and gently rolling lands of Northern Alberta, so attractive to the farmer and stock raiser.

NATURAL GAS.

Enterprising men of our city have sunk a gas well in the heart of the city. They have found gas and will find more of it. The enormous influence upon the growth of a city caused by a great supply of natural gas is shown in the history of Pittsburgh, Pa.

In that city, large manufacturers, impressed with the importance of the fuel, sought their own fields with their own companies, and some of these ventures have grown to such size that one large steel company now has 100,000 acres of producing gas land under lease easily accessible to Pittsburgh, has 130 producing wells, 300 miles of pipe line, and an annual supply of 11,000,000,000 cubic feet of gas. It is estimated that the daily consumption of natural gas in the Pittsburgh district in 1903 was 350,000,000 cubic feet, 130,000 families being supplied from 2,000 wells by companies having an aggregate capital of \$60,000,000. Over 750,000 acres of gas lands are held under lease, one company having over 370,000 acres, with a daily production of over 800,000,000 cubic feet and a daily consumption of 200,000,000 cubic feet, while another large company, with 300,000 acres under lease, has a yearly consumption of nearly 32,000,000,000 cubic feet among 60,000 customers. In the Pittsburgh district alone, the pipe lines aggregate in length 4,000 miles, and over 500 new wells are drilled each year to maintain the supply.

GREAT OIL DEPOSITS.

The petroleum resources of Edmonton district are also being tested. The Egg Lake Oil Company, with a practical and experienced oil man from California at its head, is sinking a well on the s.w. quarter of section 30, township 25, range 56, north of Morinville. Regardless of the cold weather, this company is prosecuting the work of drilling with vigor, and

It would seem that we are now in for

**Three Months
of Steady Cold
Weather**

If it was to last only a few days or weeks, then any kind of a Heating Stove would tide you through, but for a long spell of cold weather where you need your house warm night and day there is no Stove on the market so well adapted for heating as the

"Riverside Oak"

It will heat two rooms at once. It has a hot air pipe attachment and it will take the cold air from the floor, heat and distribute it into any room the Hot Air Pipe is carried into, without burning any more fuel. It burns equally well Coal or Wood and the price is very low considering its efficiency and economy.

Ross Bros. Limited have handled this Stove for a long time and can conscientiously recommend it as sure to please. Have you seen the New Steel

Monarch Range

guaranteed all Steel and Malleable Iron. The top of this Range is ground to a finish, just the same as a Fry Pan or Kettle and can be used for Frying and Toasting just the same as a French Top Range. The Ovens are the most uniform of any Ranges made. The water fronts are so modelled that they will heat twice the water of an ordinary Range. It burns either Wood or Coal equally well and will heat up quickly and on a less quantity of fuel than any other range made.

See the One in our Window

they are beauties and the price is not so high as you would expect to pay for so good an article. We keep everything in Kitchen Utensils and truly think we can give you better value than any other House in the West.

Ross Bros.
 Ltd.

will soon penetrate to the oil-bearing strata which outcrops on the tract.

It is impossible to estimate the possible bearing of these oil-drillers on the growth and development of the Canadian North-West. Cheap fuel oil discovered here in quantities will prove of greater general value than the finding of a vein of pure gold. Petroleum electrifies every avenue of trade and enterprise and produces a prosperity in which every class may participate. The oil fields northwest of the city are in every detail, so far encountered by the prospectors, a duplicate of the Summerland and Los Angeles fields in California. The discovery of oil in California was caused by seepages of semi-solid bitumen, such as exudes along the outcrop at Egg Lake. In fact, the seepage is composed of the heavier ingredients of crude petroleum, the volatile oils having escaped by absorption and evaporation.

GEOLOGIST'S OPINION.

Of these deposits in this region, G. C. Hoffman, in the Geological Survey Department at Ottawa, said last year: "I cannot help thinking these extensive deposits of bitumen will in due time attract attention and be turned to good account. It is merely a matter of their existence becoming known to those having occasion for the use of this class of material."

In making this statement, the geologist did not refer to the intimate relation between deposits of bitumen or asphalt oil sands and petroleum which have unfailingly been found to exist in all the California operations. On seeing these bitumen deposits, the California oil man said at once, "There is oil below," and the Egg Lake well is the result. Therefore, the Egg Lake well, in oil field parlance, is not a "wild catter." It is a legitimate development enterprise with a ten to one shot that a good strike will be made.

It has been the history of every oil field that somewhere in its confines is to be found the "gusher." These are the capital prizes in the business, and when one is found, the eyes of the business world turn to it with a fascination that exceeds a gold craze.

THE OIL FIELD MAGNET.

"Wild cattering" in undeveloped oil fields is generally carried on by intrepid capitalists. Col. James M. Guffey of Pittsburg is a notable example of the successful plunger of this type. A recent sketch states that Col. Guffey "wild catted far in advance of developments, and discovered the celebrated Lucas well in the Beaumont pool of Texas. Col. Guffey had hundreds of thousands of acres under lease, built large refineries at Port Arthur, Texas, and equipped steamship fleets for the distribution of the product throughout the world.

The "wild catter" follows the developer. Should the first few wells in the Edmonton district give final proof of extensive petroleum deposits the "gusher hunters" will come in. They will puncture the earth in every direction, regardless of outcropping oil sand or other sure thing signs and the result will be extensive development of the fields.

OIL IN COMMERCE.

The experience of California has paved the way for the commercial use of the diverse products of the oil fields. California fuel oil is used in the locomotives etc. of the Santa Fe and Southern Pacific railway lines. One hundred and thirty seven vessels running out of San Francisco were using oil for fuel in 1904, with a saving as against coal of

3 1/2 to 50 per cent. Fuel oil is used in the smelting and glass making industries, in brick making, gas making etc. Crude oil has been utilized in road making with excellent results in California. California oils are refined, producing gasoline, benzene, engine distillate kerosene, fuel distillate, light lubricants, engine and cylinder oils and crude lubricants. Asphalts of various grades are obtained worth about \$14.00 a ton. Some of the best pavements in the city of San Francisco and of Los Angeles have been laid with oil asphalt.

OIL LAND VALUES.

One of the direct results of the discovery of oil is in the increase of the value of the lands under which the deposits lie. The state minerologist for California reports as follows: "Land values run from \$3500 to \$5000 an acre in the better parts of of Kerie River; from \$500 to \$1000 at Sunset; in Mudway as high as \$1000; at Coalingua from 250 to 4 or 5000 dollars. Kerie it is customary to allow from one to two acres to each well; at Sunset about the same; at Coalingua from one to four acres."

EDMONTON'S REWARD.

Edmonton will reap a harvest as a result of these surrounding oil deposits that the present explorers may be able to fully exploit the field would be the best possible luck for this City. It would come at a most significant moment. Just as plans are forming to constitute this city the future commercial center of one of the most prolific areas, stretching from Winnipeg to the Rocky Mountains, let there be added the discovery of great deposits of fuel oil—then note the results. California is now able to manufacture articles, which before the development of oil, were bought in the east and transported under heavy freight charge to the Pacific slope.

The best way to excite the influx of capital in large blocks from the Old Country and from the States is to press these developments of our known gas and oil resources to the limit. The evidence that these resources exist in exhaustless measure is convincing. To wait is to postpone growth and expansion.

The drilling at Egg Lake began last Saturday and is being carried on under the direction of Mr. Williams, a practical and successful oil man from California.

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory

Coal.—Coal lands may be purchased at \$10 per acre for soft coal, and \$20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of 10 cents per ton of 2000 pounds shall be collected on the gross output.

Quartz.—Persons of eighteen years and over and joint stock companies holding free miners' certificates, may obtain entry for mining location. A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of \$750 per annum for an individual, and from \$50 to \$100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1500 by 1500 feet by marking out the same with two legal posts bearing location notices, one at each end of the line of the lode or vein.

The claim may be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is \$5.00.

At least \$100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When \$500 has been expended or paid the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at \$1.00 per acre. Permission may be granted by the Minister of the Interior to locate

claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres. The patent for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent.

Placer Mining. Manitoba and the N. W. T., excepting the Yukon Territory.—Placer mining claims are generally 100 feet square, entry fee \$5.00, renewable yearly. On the North Saskatchewan river claims for six leasable benches, the former being 100 feet long, and extending between high and low water mark. The latter includes bar diggings. But extends back to the base of the hill or bank, but not exceeding 1,000 feet. Where steam power is used, claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each, for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have or who may receive entries for bar diggings on bench claims, except in the Saskatchewan river, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles of the lease. Royalty at the rate of two and a half per cent, collected on the output after it exceeds \$10,000.

Dredging in the Yukon Territory.—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, that boundary to be fixed by its position on the first day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental, \$100 per mile for first year, and \$10 per mile for each subsequent year. Royalty same as placer mining.

Placer Mining in the Yukon Territory.—Creek, gulch, river, and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch the width being from 1,000 to 2,000 feet. All other placer claims shall be 200 feet square. Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days. If the claim is within ten miles of a mining recorder's office, one extra day allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two, 1,500 feet altogether, on the output of which no royalty shall be charged, the rest of the party acquiring claims only.

Entry fee, \$10. Royalty at the rate of two and one-half per cent, on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of \$2. A claim may be abandoned, and another obtained on the same creek, gulch or river by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least \$200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made, and publishing notice in the Yukon Official Gazette.

Hydraulic Mining. Yukon Territory.—Locations suitable for hydraulic mining, having a frontage of from one to five miles, and a depth of one mile or more, may be leased for twenty years, provided the ground has been prospected by the applicant or his agent, and found to be unsuitable for placer mining, and does not include within its boundaries any mining claims already granted. A rental of \$150 for each mile of frontage and royalty at the rate of two and one-half per cent of the value of the gold shipped from the Territory are charged. Operations must be commenced within one year from the date of the lease, and not less than \$5,000 must be expended annually. The lease includes all base metals, quartz and coal, and provides for the withdrawal of unoccupied land for agricultural and building purposes.

Petroleum.—All unappropriated Dominion lands in Manitoba, the Northwest Territories and within the Yukon Territory, are open to crosscutting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospected, an area of 400 acres. Should the prospectors discover oil in paying quantities, and satisfactorily establish such discovery as an area not exceeding 640 acres, including the oil well and such other land as may be determined, will be sold to the discoverer at the rate of \$1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.

JAP ARMY ENTERS THE CITY.

Formal Occupation of Port Arthur by the Japanese Forces—Oyama's Troops Getting Active in Manchuria

Port Arthur, Jan. 17.—The Japanese army yesterday formally entered Port Arthur. General Nogi with his staff entered first; the army being represented by one regiment from each brigade in a procession five miles long, and which occupied three hours passing the waiting base. The old town buildings were badly smashed by shells but in the new town the damage was slight. All shipping in the harbor is badly damaged.

JAPS GETTING ACTIVE.

Hanahan, Jan. 17.—The activity of the Japanese army is increasing along the whole front. They are attacking villages between lines and are opening artillery fire at night. The Japanese are putting the Chinese troops in training. The first Japanese reinforcements from the army which was besieging Port Arthur has begun arriving at Liao Yang.

Telegraph

ADDRESS ADOPTED

WITHOUT ANY AMENDMENT.

Speeches on the address were of short duration and of little interest.

Ottawa, Jan. 16th.—The debate on the Address in the House today was devoid of any great interest. There were five speeches in less than three hours, after which the Address was adopted without any amendment. MacDonald, of Pictou, N.S., moved the Address and Paent, of Montmorency, seconded it. Both are young men and spoke well. Foster replied. In referring to autonomy for the North-West Mr. Foster said he favored a large Province in preference to small ones. Premier Laurier said the Government had the autonomy bill well under way, but wanted to get the opinion of the North West Government, North West Members and Senators. He announced that MacNeil was appointed Deputy Speaker. W. F. MacLean, Ont., made some remarks and the Address passed.

Toronto Has Another Blaze.
Bulletin Special.

Toronto, Jan. 16.—The four-story wood-frame shop of the Fumosa elevator work was destroyed by fire tonight. The loss is \$20,000 covered by insurance.

Rowing Club again Winners.
Bulletin Special.

Winnipeg, Jan. 16.—In the Saturday hockey game at Brandon in the Senior competition the Rowing club won, score 4 to 1. At Rat Portage the intermediate Victorias, Winnipeg, scored 9 and the Thistles 2.

Black Succeeds McKellar.
Bulletin Special.

Winnipeg, Jan. 16.—An Order in council was passed Saturday appointing W. J. Black Deputy Minister of Agriculture, vice McKellar resigned. Black is well known throughout the west as an authority on Agriculture and live stock. He enters on his new duties today.

Morgan furrows China.
Bulletin Special.

Paris, Jan. 16.—King Leopold of Belgium has sold his interests in the Canton Hankow Railway to Pierpont Morgan. A line 2800 miles long is to be built into the heart of China.

Rat Portage Wins.
Bulletin Special.

Winnipeg, Jan. 16.—After a hard game marked by stiff checking the Thistles of Rat Portage beat the Victorias tonight by 5 goals to 1.

Manitoba Boundaries.
Bulletin Special.

Winnipeg, Man., Jan. 17.—The Attorney General moved his resolution on the extension of the boundaries of Manitoba last evening and after some remarks of a critical nature by the leader of the opposition the memorial was passed unanimously. The motion is in the form of a memorial praying the Dominion government to extend the Province northward to Hudson Bay and westward to include a considerable portion of the territories of Assiniboia and Saskatchewan. The Attorney General based his arguments on the facts urged by the Premier of the province that on the granting of such memorial the province could

Port Arthur	22	6

GENERAL BRIEFS

A prairie fire burned over a large tract of country in the Nanton district a week ago destroying all the grass for miles.

Ponoka Herald.—The German people out in the Asker settlement are putting forth every endeavor to have a Lutheran church erected.

Nation News.—Robert Clement, who it is said was responsible for the prairie fire last week, was up before the J. P. last Thursday, and was assessed \$25 and costs, amounting in all to \$28.75.

Wetaskiwin Times.—C. E. Taylor, of Edmonton, who is superintending the installation of the electric lighting system in town, is here this week on one of his periodical visits.

Ponoka Herald.—Mrs. Metcalfe, who has been visiting at the parsonage this winter, spent a few days in Edmonton this week. It was a case of seeing the northern metropolis before returning to Manitoba.

Vancouver News Advertiser.—Among the arrivals on yesterday's Pacific express were some 50 people from the Northwest who have taken advantage of the special excursion rate to spy out the land in British Columbia with a view to settling in this milder climate.

NOTICE

NOTICE IS HEREBY GIVEN that an application will be made to the Parliament of Canada at the next session thereof for an act to incorporate the Moose Jaw and Edmonton Railway Company, with power to construct a railway from a point on the line of the Canadian Pacific Railway Company, at or near Moose Jaw, in the district of Assiniboia in the Northwest Territories to a point on the Elbow of the South Saskatchewan River and thence in a Northwesterly direction to Edmonton, with such powers as are usually given to railway companies, the works thereof to be declared for the general advantage of Canada.

Dated at Ottawa this 29th day of December, A. D. 1904.

McGivern & Haydon.
Solicitors for Applicants.

ern Railway Company, and the Iron-ore, Bancroft and Ottawa Railway Company, at the Quebec, New Brunswick and Nova Scotia Railway Company, and the James Bay Railway Company, or any of them, or to purchase such lines or any of them or to amalgamate with the said Companies or any of them, also authorizing the Company to construct the following lines of railway:—

1. From Regina north-westerly and westerly to a point on the Red Deer River in the District of Alberta, with a branch line west of the South Saskatchewan River and running north-easterly to a point in township 45, range 4 west of the 3rd Meridian, in or near Carlton on the North Saskatchewan River.

2. From Regina northerly to or near Humboldt, thence north-easterly down the valley of the Crotchet River to a point at or near the Pas Mission on the Saskatchewan River.

3. From a point on the Main Line of the Canadian Northern Railway between Humboldt and the South Saskatchewan River north-easterly to a point at or near the crossing of the South Saskatchewan River by the Prince Albert Branch of the Canadian Northern Railway.

4. From a point on the Main Line of the Canadian Northern Railway west of Battleford into Battleford.

Z. A. LASH.

Solicitor for the Applicant.
Toronto, December 22nd, 1904.
SW-17-33—chg

The Canadian Northwest Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, or 160 acres more or less.

ENTRY.—Entry may be made per the district in which the land to be taken is situated, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent, may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3, or 4, must or substitute 20 head of stock, with buildings for their accommodation, cultivate 30 acres of his homestead, and have besides 80 acres sub-stantiated.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd June, 1889.

Every homesteader who fails to comply with the requirements of the

homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY.

Deputy Minister of the Interior.
N.B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

ASSIGNEE'S SALE.

A Valuable Hotel Property.
There will be sold by Public Auction at the Prince of Wales Hotel in the town of Wetaskiwin in the Northwest Territories of Canada, on Wednesday, February 1st, 1905, at 2 p. m. the valuable premises, known as the Prince of Wales Hotel, in Wetaskiwin, Alberta.

This is a fine, new, solid, brick hotel, three stories and basement, with private electric light plant and waterworks, large sample rooms, Bath rooms, furniture new and up-to-date. This is considered to be the most modern and best equipped hotel in the Territories.

The Hotel is licensed, and the property will be sold as a going concern. The Assignee reserves the right. For further particulars and conditions of sale, write to J. B. Anderson, Assignee, Wetaskiwin, Alta., or to the undersigned.

M. E. O'Brien.

Some Municipal Problems to be Solved.

Among the questions likely to come up for consideration and legislative action by the council during the year is that of the city pound. The consideration of present arrangements came within the ken of the Aldermen at a recent meeting in a manner likely to induce steps towards an alteration of system. An account was presented to the council for \$16 pound keep of unclaimed cow. The pound keeper had found it impossible to dispose of the bovine prisoner by auction sale and when he tried to sell her privately the prospective purchaser put a maximum valuation of her of 50c, she was finally destroyed and the bill for her arrest and subsequent fodder and attention came up to the city authorities for payment. The account was paid but the opportunity was taken by some of the Aldermen to intimate that steps must be taken to prevent this particular chapter of history repeating itself, and to permanently and satisfactorily solve the city pound problem.

The town pound was one of the standing troubles of the council for many years, and its history was varied and interesting. The trouble was to make the business pay for the running of the machinery. The pound has usually been provided by one of the stable keepers, his remuneration coming from fees fixed by the council. The trouble was to secure some one to shoulder the responsibility of impounding animals and answering to the public therefor, on a commission basis. Arrangements were made at times with private parties to act in this capacity but their tenure of office was generally short and not altogether pleasant. The police were ordered to do the work but they found it more exciting even than their other duties and were relieved of it. Of late the market clerk has also been pound keeper, but on request he has now been freed from the duty, and the appointment of a keeper, either on salary or fees will of necessity confront the council at an early date.

The present fire by law, or building by law also promises the employment of some of the time and attention of the council. This by law was put in force some years since for the purpose of preventing the erection of unprotected frame buildings in the more congested portion of the business section of the city. Violations of the by law have been permitted from time to time for cause but the purpose of it has not been abandoned. The chief difficulty found in enforcing it has been in fixing the limits within which it should be operative. These have been extended westward along Jasper avenue as required but the proper definition of the north and south boundaries of the limits has been always a subject of divergent views. The lane running east and west through the first row of blocks north of Jasper avenue was made the northern limit, but this permits the erection of frame buildings on the north side of the lane, only twenty feet distant from the rear of Main street blocks which run back the full depth of the lots. This it has been argued is unfair and to a large degree destroys the purpose of the by law, while to extend the limit to the first full street paralleling Jasper avenue would restrict building on some vacant lots and prevent the concentration of the business houses of the city.

This by law was also brought up at an early meeting of the new council, by a request for permission to remove a frame building from one portion of the restricted area to another. To grant this would be a departure from the provisions of the by law but as the request was based on the promise to erect a brick block in the site now occupied by the frame building, the question of expediency of

setting aside the letter of the law was discussed at some length.

Though the request was not granted the discussion served to reveal the presence of a strong sentiment in the council in favor of the total abolition of the by law on the ground that its effect in restricting building in the business section of the city more than counterbalanced any advantage gained in the class of the buildings erected. Alderman Bellamy voiced this sentiment by pointing out that the effect of the restriction was to interfere with the natural course of municipal progress. He pointed out that the first building erected in a village were usually small frame structures, which were enlarged and eventually replaced by large permanent structures as the prosperity of the owners or occupants warranted and as the expansion of business demanded.

This was a direct challenge of the fundamental principle and purpose of the by law, and as the view was endorsed other Aldermen suggested that the merits of the existing by law would be very seriously considered by the council at some future time.

TORONTO, ONT.

ONE of the advantages of the Cuban tobacco I procure, is that it is almost entirely cured by nature.

The climate is so hot that the tobacco sweats naturally—the leaf is ripened uniformly and the subsequent process of curing favorably promoted.

With the expert attention the leaf receives in Cuba it is pretty thoroughly cured and preserved—and its fragrant aroma developed by having been slowly fermented. I allow it to remain in my warehouse from 2 to 3 years, until it has sufficiently aged and has that mellowness that age alone can give. It takes a lot of study and experience to know when Havana tobacco is just right. Pharaoh tobacco is always just right.

J. BRUCE PAYNE, Limited, Granby, P.Q.

So much for the filler. For the binder I use a Connecticut broadleaf, the best that money can buy. I import the wrapper, a clear leaf Samatra direct from Amsterdam, Holland.—J.B.P.

REPORT OF THE IRON PROPERTY

OF THE EDMONTON COAL AND IRON COMPANY

LOCATION.

About one hundred miles northeast of Edmonton on the north side of the Saskatchewan river and midway between Victoria and Lac La Biche in the North-West Territories of Canada.

TRANSPORTATION.

Good wagon roads from Edmonton and from Ft. Saskatchewan also south to Whitford and Battleford. The property is situated twenty miles north of the route of the Canadian Pacific Railway, near the route of the Grand Trunk Pacific and within eight miles of the Saskatchewan river which is navigable.

CHARACTER OF COUNTRY.

Comparatively flat prairie relieved with low rolling hills, which are thickly wooded with small jack pine and fir. The pine runs from five to eight inches in diameter, and is suitable for fencing, building and fuel.

WATER SUPPLY.

There is a stream running through the property, which in the driest seasons yields an ample supply for all purposes. In addition there are two large lakes of fresh water on the property at least 300 acres.

DESCRIPTION OF PROPERTY.

This consists of six claims in townships 58 and 59, ranges 14 and 15, west of Fourth Meridian. The claims are named Wee Aman, Iron-dale, Limonite, Farm Revoktoke, Rita and Eva, and all being fully licensed by the Dominion Government to Messrs. McAdam & Johnson, and surveyed by Messrs. Saunders & Driscoll, P.L.S., in June, 1904.

CHARACTER OF MINERAL DEPOSIT.

Oxide of iron, yielding on analysis, 45.2 per cent of metallic iron on the certificate of Mr. A. L. McKillop, of Nelson, dated October 26, 1904.

OCCURRENCE OF DEPOSIT.

A stream runs through the property from north to south, and in the flat portions widens out into a large bog in which the ore is deposited for a distance of two miles in length and from 200 to 600 feet in width; the depth of the deposit is from six to fourteen feet. On the Wee Aman claim it is from 500 to 600 feet in width, and is a genuine bog ore. Towards the north end of the property the ground rises and the deposit is covered by several feet of gravel, put at points where the drift is cut evidences of the continuance of the deposit underneath are found.

WORK DONE.

A number of pits have been sunk, some twenty feet deep, through the deposit, and in each its continuity over the area named has been demonstrated. In addition a trench half a mile long has been cut to drain the upper or north end of the property. On the Wee Aman claim a substantial cabin and barn have been built.

QUANTITY.

The extent of the development work will not admit of a close estimate of tonnage, but I can safely say from the areas actually measured that a million tons would be well within the mark, and it is not improbable that this estimate will be greatly increased as work proceeds.

UTILITY OF DEPOSIT.

First, an excellent paint oxide for which a market could readily be found as the country opens up and railway facilities are provided. Second, in combination with other ores for smelting and iron and steel manufacture, similar to that so successfully smelted at the Radnor Forges, Quebec, for many years.

COST OF DEVELOPMENT.

\$10,000 judiciously expended in sinking and boring would thoroughly prove the property. I believe that you would have in it a most valuable asset and one easily and quickly realizable, as it is more than likely from the character and occurrence of the deposit that the springs come from a stratified ore body below which should be disclosed by boring.

Having had thirty years' experience in locating and working various iron deposits, I have no hesitation in saying that this is a valuable property, and one which will justify the expenditure recommended.

FUEL.

On the banks of the Saskatchewan river eight miles south there is an outcropping of good lignitic coal running from 45 to 50 per cent in fixed carbon. This is easily accessible and available for fuel purposes.

Signed, W.M. BLAKEMORE, M.I.M.E.

BY-LAW NO. 7.

A BY-LAW to provide for the granting of a bonus of \$100,000.00 to the Grand Trunk Pacific Railway Company and for granting exemption from taxation to the said Company, and for other purposes.

WHEREAS, the Council of the City of Edmonton and the Grand Trunk Pacific Railway Company, having entered into negotiations, have come to a provisional and preliminary agreement whereby it is proposed that the City should grant to the Company a bonus of \$100,000.00 payable in cash or in the debentures of the City payable as hereinafter provided, and exemption from taxation as hereinafter provided and certain other rights, privileges and concessions, in consideration whereof it is proposed that the Company should establish and maintain at Edmonton its chief divisional point on their main line between Winnipeg and the Pacific Coast, and grant to the City a number of other important rights, privileges and concessions to the advantage of the City;

AND WHEREAS, it is expedient that the Council should be authorized to conclude in the name of the City a final and binding agreement with the said Company, and as part of such agreement to bind the City to grant to the Company the bonus and exemption from taxation above referred to;

AND WHEREAS, it is expedient that debentures of the City for the said sum of \$100,000.00 be issued for the purpose of granting the said bonus and that the said debentures should be payable during the period of forty years from the date of the issue thereof, and should bear interest at a rate not exceeding four and one-half per cent. per annum and should, as the Council shall deem expedient, be payable either (1) in such manner that each installment of principal and interest shall be as nearly as possible equal in each year of the said period of forty years, or (2) in such manner that the principal shall be paid at the end of the said period of forty years (an annual sum by way of sinking fund being raised annually during the said period sufficient to meet the principal at maturity) and the interest thereon annually;

AND WHEREAS, the amount of the whole rateable property in the City according to the last revised Assessment Roll is \$2,958,748.00;

AND WHEREAS, the total amount of the existing debenture debt, exclusive of local improvement debts, secured by special assessments is \$269,937.39 of which no part is in arrears;

AND WHEREAS, it is expedient that this By-Law should take effect on the day of the final passing thereof;

NOW THEREFORE the Council of the City of Edmonton, duly assembled, enacts as follows:

(1) The Mayor and Secretary-Treasurer of the City of Edmonton are hereby authorized and empowered to issue in the name and on behalf of the City one or more debentures to an amount not exceeding in the aggregate the sum of \$100,000.00, for the purpose of the sale thereof being delivered or paid to The Grand Trunk Pacific Railway Company as a Bonus.

(2) The said indebtedness created by the said debentures shall be paid and the said debentures shall be made payable during the period of forty years from the date of the issue of such debentures, and shall bear interest at a rate not exceeding four and one-half per cent. per annum, and shall as the Council shall deem expedient be payable either (1) in such manner that each installment of principal and interest shall be as nearly as possible equal in each year of the said period of forty years, or (2) in such manner that the principal shall be paid at the end of the said period of forty years (an equal sum by way of sinking fund being raised annually during the said period sufficient to meet the principal at maturity) and the interest thereon annually.

(3) During the currency of the said indebtedness there shall be raised annually by special general rate on all the rateable property in the City at the same time and in the same manner as the ordinary general City taxes a sufficient sum to meet the amount of the annual installment of principal and interest, or the amount of the equal annual sinking fund and interest, as the case may be, payable in each year in respect of the said indebtedness.

(4) None of the debentures or the proceeds thereof shall be delivered to the Company unless and until the council, on behalf of the said City, and the Company shall have entered into an agreement binding upon both parties whereby setting forth the terms and conditions upon which, and the consideration for which such bonus is granted, and unless and until such agreement is approved and its execution by the Mayor and Secretary-Treasurer, on behalf of the Council, and one of the terms of the agreement may be to the effect that for the term of five years from the first of January, 1905, the total amount for and in respect of which the Company or the property shall be assessed by the City, shall not exceed the actual valuation of the Company's lands at the time of the purchase thereof by the Company

such valuation not to be decreased by any bonus or deduction in the nature of a bonus allowed to the Company.

(5) This By-Law shall take effect on the final passing thereof.

(6) The votes of the burgesses for and against this By-Law shall be taken at the Council Chamber, in the City of Edmonton, on Monday, the 30th day of January, 1905, between the hours of 9 a.m. and 5 p.m.

(7) George Johnstone Kinnaird, Secretary-Treasurer of the City is hereby appointed Returning Officer, and Knecht Collins, Deputy Returning Officer, to take the votes at the time and place aforesaid.

(8) The said Council Chamber at the hour of 11 o'clock on Saturday, the 28th day of January, 1905, is hereby fixed as the time, when and place where the Mayor will be present and will make all such proper appointments as he shall be requested to make of persons to attend the polling, place, and at the final summing up of the votes by the said Secretary-Treasurer on behalf of the persons interested in promoting or opposing the passing of the By-Law.

(9) The said Council Chamber at the hour of 5.30 p.m. of the said 30th day of January is hereby fixed as the place, and time where and when the Secretary-Treasurer shall sum up the number of votes given for and against this By-Law.

Passed provisionally in Council, this 3rd day of January, 1905.

K. W. MCKENZIE, Mayor.

GEO. J. KINNAIRD, Secretary-Treasurer.

Public Notice is hereby given that the above is a true copy of a proposed By-law which has been introduced, and which may be finally passed by the council (in the event of the assent of the burgesses being obtained thereto), after one month from the 5th day of January, 1905, using the date of the first publication of the said proposed By-law in the "Edmonton Bulletin," a newspaper published in the City of Edmonton, and that Monday, the 30th day of January, 1905, between the hours of 9 a.m. and 5 p.m. at the Council Chamber, Edmonton, the voting on the proposed By-law will be held between the hours of 9 a.m. and 5 p.m.
